Chief Executive Officer

Welcome to IMP Consulting

At Inti Mutu Prima, we believe that a management system should not only help an organization achieve compliance or certification. It should also make processes clearer, improve consistency, strengthen people's capabilities, and support better business results.

This belief is reflected in our motto, **"Transforming Systems, Elevating Performance."** We help organizations transform requirements, policies, and procedures into practical systems that can be understood, implemented, and continuously improved. When the system works effectively, performance will follow.

Through consulting, training, coaching, and auditing services, we work closely with our clients to understand their challenges and develop solutions that are relevant to their needs. Our goal is to become a trusted partner in building stronger systems and achieving sustainable performance.

Thank you for taking the time to get to know us. We look forward to working and growing together.

About Company

PT Inti Mutu Prima was established in 2012 through the collaboration of experienced professionals who shared the same vision: to help organizations strengthen their businesses and management systems through the implementation and certification of internationally recognized standards.

Bringing together expertise in management consulting, auditing, training, and organizational improvement, Inti Mutu Prima supports clients in transforming international standard requirements into practical and effective ways of working.

Over the years, we have worked with organizations across various industries to improve business processes, develop competent people, manage risks, achieve certification, and build sustainable performance.

Our commitment goes beyond helping clients obtain certificates. We aim to ensure that every management system delivers real value, supports business objectives, and contributes to continuous improvement.

” *“We provide consultancy service with total solution more than just improvement”* ”
